

IONIC

Lithium-Ion Batteries

Applications:

- Trolling motors
- Liftgates
- Motorhomes
- Floorsweepers
- Solar Power
- Wheelchairs

Features and Benefits of Lithium Batteries:

- Lightweight (by 50%)
- Longer Life (10x)
- Constant Power
- Maintenance-Free
- Faster Charging

The Ionic Deep cycle batteries allow for direct lead acid replacement for many different deep cycle applications using large formatted lithium-ion cells.

Safety features for Ionic Deep Cycle Batteries include reverse polarity, low voltage protection, short-circuit protection, overheating protection and overdischarge protection.

Ionic Deep cycle batteries also have Bluetooth technology to monitor the status of the battery level on your smart phone.
